

EJERCICIOS DE MATEMÁTICA

Descarga Gratis Fichas de Matemática para Inicial, primaria y Secundaria

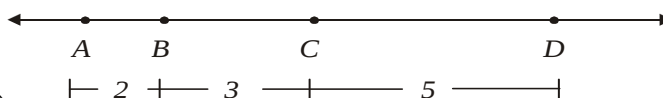

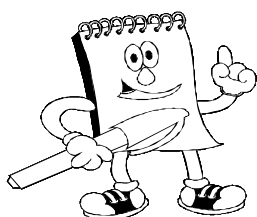

Elementos Geométricos

GEOMETRÍA

Cuarto Grado de Primaria

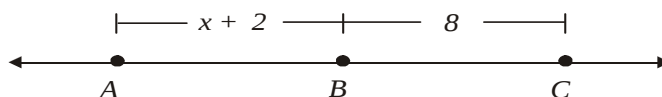

1. En la figura $AB = 2\text{cm}$, $BC = 3\text{cm}$ y $CD = 5\text{cm}$. Hallar AD .

$$AD = AB + BC + CD$$
$$AD = 2\text{ cm} + 3\text{ cm} + 5\text{ cm}$$

$$AD = 10\text{ cm}$$

2. En la figura los segmentos $AB = BC$. Hallar el valor de "x".

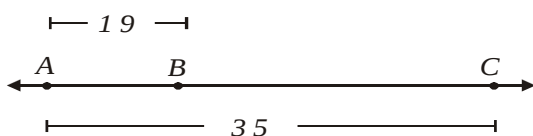

$$x + 2 = 8$$

$$x = 8 - 2$$

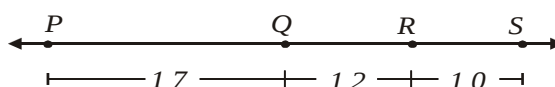

$$x = 6$$

¡Practiquemos!

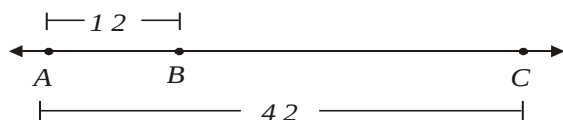

1. Calcular BC

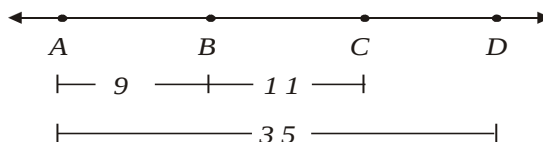

2. Calcular PS

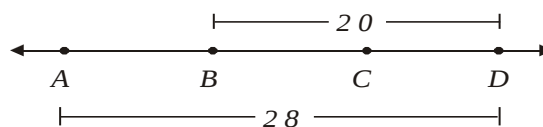

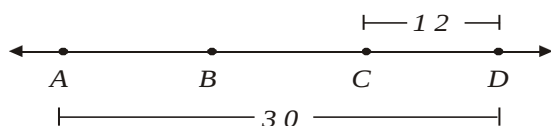

3. Calcular BC

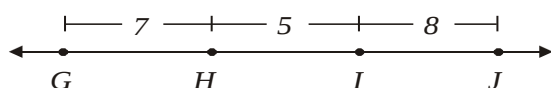

4. Calcular BD

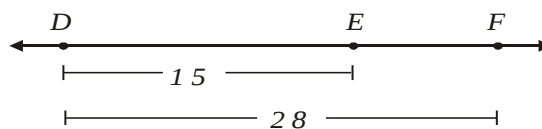

5. Si "B" es punto medio de AC. 6. Calcular CD. Si AB = BC
Calcular BD.

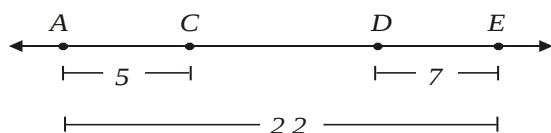

7. De la figura, calcular GJ

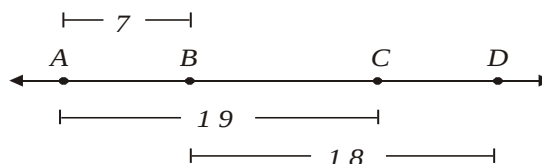

8. De la figura, calcular EF.

9. De la figura, calcular CD

10. De la figura, calcular CD.

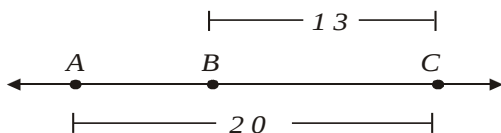

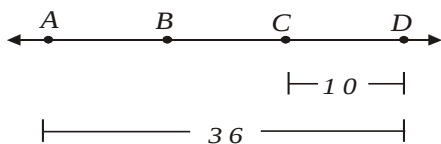

TRABAJEMOS EN CASA

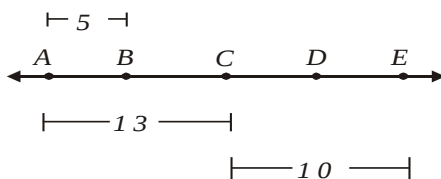

1. De la figura, calcular AB

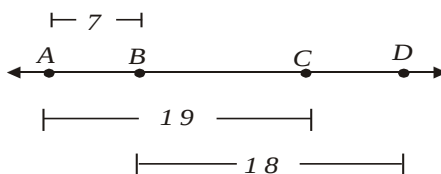

3. Si B es punto medio de AC.
Calcular AB

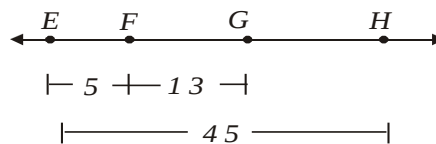

5. Calcular BE

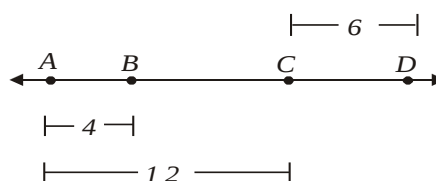

7. Calcular CD

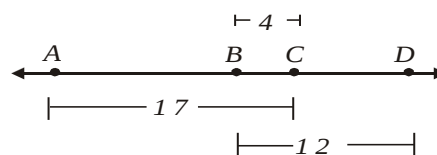

2. De la figura, calcular FH

4. Calcular BD

6. Calcular AD

8. Calcular BC
